Vendor bidding for township services/commodities

Whenever feasible, the Wilson Township Board of Supervisors supports vendor bidding for the Township's services and commodities needs. Vendor bidding provides good value for our constituents as well as a fair venue for prospective vendors. Currently the Board has two services (lawn mowing and snowplowing) and two commodities (propane and gravel) for which we are soliciting bids.

Lawn mowing involves the area adjacent to the Wilson town hall and the snowplowing includes selected roads within the township.

Interested vendors should contact a member of the Wilson Board of Directors to receive specifics on the annual projects and needs. The approximate contact periods for prospective vendor inquiries are as follows:

Services: Lawn mowing = March, Snow plowing = September

Commodities: Gravel = February, Propane = August

If you have any questions, please contact one of the Supervisors.
